(Entry into force of the Law)
This Law shall enter into force eight days from the date of its publication in the "Official Gazette of the Federation of Bosnia and Herzegovina".

**EXPLANATION**

**I – CONSTITUTIONAL BASIS**

The constitutional basis for adoption of the Law on Prevention of Violence and Misbehaviour at Sports Events is enshrined in the provision II.A. Article 2, paragraph (1), item i), provision III. of Article 1 item d) and in relation to the provision III. Article 2, item a) and Article 3, paragraph (3), and the provision IV.A.7 Article 20, paragraph d) of the FBiH Constitution.

The above-mentioned provisions stipulate that the FBiH shall ensure the application of the highest level of internationally recognized rights and freedoms defined by the Acts specified in the Annex, and particularly that all persons in the FBiH territory enjoy the rights to basic freedoms: freedom of speech and of the press, freedom of thought, conscience and belief and freedom of assembly, and that the FBiH government and the cantons are responsible for guaranteeing and implementing (laws in the field) of human rights, which include, among others, the right to freedom of assembly which must be ensured as binding in the entire FBiH; in performance of these competencies and regarding laws and other regulations binding in the entire FBiH, in accordance with the Constitution and decisions of the FBiH Parliament, the FBiH authorities shall act while taking into account cantonal jurisdictions, different situations in some cantons and need for flexibility in implementation. The FBiH government has the right to establish the policy and pass the laws concerning the guarantee and implementation (of the laws in the area, etc.) of human rights. The FBiH Constitution prescribes that the affairs of inter-cantonal crimes are in the
sole jurisdiction of the FBiH, which particularly appears during sports events. Bearing in mind that this law regulates the manner and procedure of exercising and conducting public assemblies at sports events which belongs to the right to freedom of assembly guaranteed by the FBiH Constitution and which is to be ensured by the FBiH, and that during public assembly at sports events are committed the acts of inter-cantonal crime whose characteristics were determined by the Law on Internal Affairs of the FBiH, we consider that the above-mentioned provisions of the FBiH Constitution can serve as the basis for adoption of this law.

II - REASONS FOR ADOPTION OF THE LAW IN URGENT PROCEDURE

By the Act number 02-d-02-441/16 dated 02 March 2016, the Club of Bosniak Delegates launched an Initiative proposing to the FBiH Government to submit a Draft Law on Public Order in the FBiH to the parliamentary procedure (hereinafter: Law on Public Order).

The issues which need to be regulated by the Law on Public Order and reasons for existence of need to adopt this Law have been defined more closely in the explanation of this Initiative.

It derives from the Initiative that the Law on Public Order needs to regulate the following issues:

a) organizing sports and other events in the FBiH territory,
b) other public assemblies, i.e. issues in the field of public order in the FBiH territory.

The reasons for adopting the Public Order Act stated in the Initiative are as follows:

a) prevention of diversionary and terrorist activities of certain groups and individuals,
b) legal possibility of engaging police forces from the FBiH level or from other cantons when organizing sports, cultural and other public events or other forms of public assemblies in the FBiH,
c) establishment of uniform rules of conduct and uniform penal policy in the FBiH area when it comes to public assembly,
d) establishment of the legal basis for provision of material, technical and other types of assistance to the cantonal police for issues in the field of public order,
e) legal regulation of public assembly of citizens in the vicinity of facilities and space protected by the FBiH Police Administration (hereinafter: the Police Administration).

It is stated in the Initiative that the FBiH Government, in cooperation with the cantons, shall prepare, as soon as possible, the text of regulations in the field of public order which are needed at the FBiH level.

From the aforementioned Initiative, a detailed analysis of the issues contained in the Initiative was conducted and in particular the issues covered by this law, and it was found that violence and misbehaviour at sports events in the FBiH area have been regulated by the cantonal regulations (the regulation exists in four cantons).

These laws on the prevention of violence and misbehaviour at sports events determine
the measures for the prevention of violence and misbehavior at sports events, as well as the obligations of organizer and mandate of the competent authorities in the implementation of these measures.

The FBiH Constitution has not explicitly established that the activities of suppression, prevention of violence and misbehavior at sports events are under the jurisdiction of the cantons.

By reviewing the content of the Law on Prevention of Violence and Misbehaviour at Sports Events, it can be concluded that the issues governed by these regulations are directly related to performance of the tasks which, by the Chapter III. Article 1, item d) of the FBiH Constitution, are explicitly placed in the sole competence of the FBiH (suppression of terrorism and inter-cantonal crime), because these regulations (Law on Prevention of Violence and Misbehaviour at Sports Events) determine the measures and activities necessary to suppress terrorist activities and inter-cantonal crime during the holding of public assemblies and sports events in the cantonal area.

The Law on the Prevention of Violence and Misbehaviour at Sports Events should be binding in the FBiH territory and not only in the area of the cantons for which this Law is adopted, because in sports fields, as a special form of public assembly, requires a greater form of organizing such events which cannot be conducted independently by cantonal ministries without assistance of other cantonal ministries and FBiH Ministry of the Interior (escorting spectators, providing information, providing technical, personnel and other assistance, taking measures against terrorist activities etc.). This regulation should be adopted on the basis of the decisions defined by the Chapter III. Article 3, paragraph 3 of the FBiH Constitution, which stipulates that in the implementation of these competencies regarding the laws and other regulations which are binding in the entire FBiH territory, in accordance with this Constitution and decisions of the FBiH Parliament, the FBiH authorities shall act while taking into account cantonal competencies, different situations in individual cantons, with the need for flexibility in implementation. The FBiH government has the right to establish policy and adopt laws concerning each of these competencies.

Practice has shown that the above-mentioned provision of the Constitution should be the starting point to regulate the issue of organizing sports events in the FBiH territory, since certain deplorable events happened which resulted in death case. Supporters of particular clubs from a canton different from the canton where sports event was organized, because of disorder and incidents sustained serious injuries that were qualified as a criminal offense. Certain groups of supporters during sports event damage the objects and things of other persons and participate in fights. These actions have all the elements of inter-cantonal crime and the FBiH shall take all measures and actions in order to control successfully these negative activities.

In accordance with the above-mentioned initiative and given explanation, the FBiH Ministry of Interior decided, in order to regulate the aforementioned issues, to prepare a regulation that would regulate misbehaviour at sports fields and submit it to the
FBiH Government.
The FBiH Government adopted a conclusion accepting the Initiative of the Club of Bosniak Delegates and tasked the FBiH Ministry to submit to the FBiH Government a proposal of decision on the appointment of working group to draft the Law on Prevention of Violence and Misbehaviour at Sports Events. In accordance with the above-mentioned conclusion, the FBiH Government adopted a decision appointing the working group.

III - EXPLANATION OF PROPOSED SOLUTIONS

With regard to the concept and content, the Law on Prevention of Violence and Misbehaviour at Sports Events has been systematized in 7 chapters which make thematically complete units within the document unique by content, as follows: I - Basic Provisions, II - Concept of Violence and Misbehaviour at Sports Events, III - Measures to prevent violence and misbehaviour at sports events, IV – Adoption of Strategy and keeping records, V - Administrative supervision, VI - Penal provisions and XII - Transitional and final provisions.

This law establishes measures and activities to prevent terrorist activities by monitoring the entire course of sports event and effective and timely action of the FBiH Police Administration in cases of occurrence of inter-cantonal crime, as well as measures and actions related to endangering and violation of public order. All previously mentioned actions and measures to prevent occurrence of negative occurrences make the whole, which is difficult to separate specifically to measures that would relate only to inter-cantonal crime, terrorism and public order at sports events.

I - Basic Provisions (Articles 1 to 7) contain basic principles related to the characteristics of violence and misbehavior at sport events and entities that are responsible for taking measures and actions to prevent violence and misbehaviour at sports events, and these are: characteristics of violence and misbehavior and protection and other measures to prevent violence and misbehaviour at sports events, responsibility of the organizer of sports event, Security Committee and meaning of certain terms specified in this Law and application of other regulations.

II - Concept of violence and misbehaviour at sports events (Articles 8 to 10)

This chapter defines actions that are considered as violence at sports events and misbehaviour at sports events.

III - Measures to prevent violence and misbehaviour at sports events (Articles 11 to 31)

This chapter regulates issues related to measures taken by the organizer of sports event during sports event, measures taken at sports events with increased risk and measures taken by the competent authorities.

IV - Adoption of strategy and keeping records (Articles 32 to 37)
This chapter defines issues related to the development of strategy, co-operation and keeping records for preventing violence and misbehaviour at sports fields. The adoption of strategy and cooperation was established by the Convention on integrated access to security, provision of services in football matches and other sports events.

V - Administrative supervision (Articles 38 to 39)
This chapter defines the issues related to the supervision of application of this Law and the bylaws adopted on the basis of this Law.

VI - Penal provisions (Articles 40 to 49)
This chapter identifies the criminal offense at sports events by lex specialis regulation and violations and protection measures taken against persons who commit violence and misbehave at sports events.

We believe that the most effective preventive measure for spectators is prohibiting their attendance at sports events if they commit acts of misbehaviour at sports events and security measure if they commit violence at sports events, and by these measures spectators themselves will influence on assurance of public order at sports events.

VII - Transitional and Final Provisions (Articles 50 to 52)
This chapter defines the issues related to the deadlines for adoption of bylaws and the date of entry into force of this Law.

IV - HARMONIZATION OF REGULATIONS WITH THE EUROPEAN LEGISLATION
The basis for adoption of special Law on Prevention of Violence and Misbehaviour at Sports Events derives from the European Convention on the Violence and Misbehaviour of Spectators at sports events, especially in football matches (Series of European Agreements number 120) which was opened for signature in Strasbourg on 19 August 1985. On the basis of this Convention, many European countries passed a special law that regulates only the issue of violence and misbehaviour at sports events. The Law on Prevention of Violence and Misbehavior at Sports Events is in line with the mentioned Convention.
Likewise, a significant international document which regulates the issue of taking measures and actions at sports events to combat violence and misbehaviour at sports events is the Council of Europe’s Convention on an Integrated Safety, Security and Service Approach at Football Matches and Other Sports Events, Saint-Denis 03 July 2016.

V - IMPLEMENTING MECHANISMS AND WAYS TO ENSURE RESPECT
FOR REGULATIONS

The implementation of the Law will be provided by the FBiH Ministry and the cantonal ministry through supervision. These activities will be carried out through administrative supervision, which consists of giving expert opinions, providing information and other activities.

It is important to emphasize the significance of Security Committee which will be formed by sports associations under Article 4 of this Law, which will monitor and coordinate all activities related to security at sports events by the organizer of sports event.

Respect and application of regulations shall be provided by the coordination body referred to in Article 3, paragraph (3) of this Law, headed by police officer of the cantonal ministry on the area of which a sports event takes place.

VI - DESCRIPTION OF CONSULTATIONS CONDUCTED IN THE PROCESS OF DEVELOPMENT OF REGULATIONS

In accordance with the conclusions of the FBiH Government, the FBiH Ministry of Interior proposed a working group (WG), appointed by the FBiH Government, which made the Draft Law on Prevention of Violence and Misbehaviour at Sports Events.

The WG made the Draft Law in accordance with the Decision of the FBiH Government and submitted it to the Federal Minister of Interior.

After receiving the proposals and remarks, the FBiH Minister of the Interior submitted to the FBiH Police Administration the Draft Law on Prevention of Violence and Misbehaviour at Sports Events with remarks and proposals from the above-mentioned authorities and institutions, for the purpose of reviewing the Draft Laws, remarks and proposals in order to establish the final text of the Draft Law on public assembly.

The following bodies had remarks and proposals to the Draft Law:
- The Football Federation of BiH - two,
- Inspectorate for supervision of work of agencies and internal services for protection of people and property from fire - four,
- Sector for General and Common Affairs - two.

The Cantonal Ministry of Interior from Canton 10 Livno, Herzegovina-Neretva Canton and West Herzegovina Canton expressed their views about the preliminary Draft Law on Prevention of Violence and Misbehaviour at Sports Events, stating that the prevention of violence and misbehavior at sports events is the sole competence of
the cantons and they disagree that the mentioned law is passed by the FBiH Parliament.

By reviewing the content of the Draft Law on Prevention of Violence and Misbehaviour at Sports Events, it can be clearly established that there is no transfer of the competence regarding prevention of violence and misbehavior at sports events organized at the Cantonal Ministry of Interior to any FBiH Administration Body, but these activities remain under the jurisdiction of the Cantonal Ministry of Interior. This law uniquely regulates the prevention of violence and misbehavior at sports events in the FBiH area, which in most cases, when the crime occurs in these events, has elements of inter-cantonal crime which fall within the sole competence of the FBiH. The remarks and proposals made by the Football Federation of BiH are not harmonized with the Law on Sports in BiH.

The remarks and proposals made by the Inspectorate for supervision of work of agencies and internal services for protection of people and property from fire pertained to the harmonization of the Draft Law on Prevention of Violence and Misbehaviour at Sports Events with the Law on agencies and internal services for protection of people and property and are fully accepted.

The remarks and proposals of the Sector for general and common affairs pertained to the nomotechnical regulation of the provisions.

The FBiH Police Administration considered the Preliminary Draft Law developed by the WG and established that the Preliminary Draft Law regulates the field in which acts and actions encompassed by the definition of inter-cantonal crime are in the jurisdiction of the Federal Police Administration and that it is necessary to pass this law at the FBiH level.

III FINANCIAL RESOURCES

The adoption of this law does not require additional funds from the FBiH budget, but its implementation does.

4 – Measures taken by competent bodies

Article 30
(Measures for prevention of violence and misbehaviour)

(1) The Cantonal Ministry may, during the holding of sports events with increased risk, order the taking of all necessary measures to prevent the violence and misbehavior of spectators, in particular may:

a) order groups of visiting supporters to move in certain direction when arriving or leaving the sports facility,

b) order the organizer of sports event to remove the perceived shortcomings of sports facility or shortcomings in organization, especially concerning the perceived shortcomings during sports event which may significantly endanger the safety of participants of sports event;

c) disable the arrival to the place of sports event or forbid the entry to sports facility,
i.e. move away from sports facility a person whose behavior leads to conclusion that he tends/intends to commit violence and/or misbehave.

(2) The Cantonal Ministry shall, prior to the sports event with increased risk, at least 24 hours prior to its beginning, inspect sports facility where sports event will be held and shall inspect organizational preparations and ensure that sports facility is searched on time, in accordance with the applicable procedures, in order to detect presence of, possibly, explosive diversionary-terrorist devices, firearms, pyrotechnics, objects suitable for causing body injuries, etc.

(3) If the organizer of sports event does not comply with the orders of the competent Cantonal Ministry, and because failure to remove perceived shortcomings may significantly endanger the safety of participants in sports event, the competent Cantonal Ministry may forbid the holding of sports event.

(4) During sports events with increased risk referred to in paragraph (1) of this Article, Cantonal Ministry may, if assessed necessary, request assistance from the FBiH Police Administration.

**Article 52**

(Entry into force of the Law)
This Law shall enter into force eight days from the date of its publication in the "Official Gazette of the Federation of Bosnia and Herzegovina".

**EXPLANATION**
I – CONSTITUTIONAL BASIS

The constitutional basis for adoption of the Law on Prevention of Violence and Misbehaviour at Sports Events is enshrined in the provision II.A. Article 2, paragraph (1), item i), provision III. of Article 1 item d) and in relation to the provision III. Article 2, item a) and Article 3, paragraph (3), and the provision IV.A.7 Article 20, paragraph d) of the FBiH Constitution.

The above-mentioned provisions stipulate that the FBiH shall ensure the application of the highest level of internationally recognized rights and freedoms defined by the Acts specified in the Annex, and particularly that all persons in the FBiH territory enjoy the rights to basic freedoms: freedom of speech and of the press, freedom of thought, conscience and belief and freedom of assembly, and that the FBiH government and the cantons are responsible for guaranteeing and implementing (laws in the field) of human rights, which include, among others, the right to freedom of assembly which must be ensured as binding in the entire FBiH; in performance of these competencies and regarding laws and other regulations binding in the entire FBiH, in accordance with the Constitution and decisions of the FBiH Parliament, the FBiH authorities shall act while taking into account cantonal jurisdictions, different situations in some cantons and need for flexibility in implementation. The FBiH government has the right to establish the policy and pass the laws concerning the guarantee and implementation (of the laws in the area, etc.) of human rights.

The FBiH Constitution prescribes that the affairs of inter-cantonal crimes are in the sole jurisdiction of the FBiH, which particularly appears during sports events. Bearing in mind that this law regulates the manner and procedure of exercising and conducting public assemblies at sports events which belongs to the right to freedom of assembly guaranteed by the FBiH Constitution and which is to be ensured by the FBiH, and that during public assembly at sports events are committed the acts of inter-cantonal crime whose characteristics were determined by the Law on Internal Affairs of the FBiH, we consider that the above-mentioned provisions of the FBiH Constitution can serve as the basis for adoption of this law.

II - REASONS FOR ADOPTION OF THE LAW IN URGENT PROCEDURE

By the Act number 02-d-02-441/16 dated 02 March 2016, the Club of Bosniak Delegates launched an Initiative proposing to the FBiH Government to submit a Draft Law on Public Order in the FBiH to the parliamentary procedure (hereinafter: Law on Public Order).

The issues which need to be regulated by the Law on Public Order and reasons for existence of need to adopt this Law have been defined more closely in the explanation of this Initiative.

It derives from the Initiative that the Law on Public Order needs to regulate the following issues:

a) organizing sports and other events in the FBiH territory,
b) other public assemblies, i.e. issues in the field of public order in the FBiH territory.

The reasons for adopting the Public Order Act stated in the Initiative are as follows:
a) prevention of diversionary and terrorist activities of certain groups and individuals,
b) legal possibility of engaging police forces from the FBiH level or from other cantons when organizing sports, cultural and other public events or other forms of public assemblies in the FBiH,
c) establishment of uniform rules of conduct and uniform penal policy in the FBiH area when it comes to public assembly,
d) establishment of the legal basis for provision of material, technical and other types of assistance to the cantonal police for issues in the field of public order,
e) legal regulation of public assembly of citizens in the vicinity of facilities and space protected by the FBiH Police Administration (hereinafter: the Police Administration).

It is stated in the Initiative that the FBiH Government, in cooperation with the cantons, shall prepare, as soon as possible, the text of regulations in the field of public order which are needed at the FBiH level.

From the aforementioned Initiative, a detailed analysis of the issues contained in the Initiative was conducted and in particular the issues covered by this law, and it was found that violence and misbehaviour at sports events in the FBiH area have been regulated by the cantonal regulations (the regulation exists in four cantons).

These laws on the prevention of violence and misbehaviour at sports events determine the measures for the prevention of violence and misbehavior at sports events, as well as the obligations of organizer and mandate of the competent authorities in the implementation of these measures.

The FBiH Constitution has not explicitly established that the activities of suppression, prevention of violence and misbehaviour at sports events are under the jurisdiction of the cantons.

By reviewing the content of the Law on Prevention of Violence and Misbehaviour at Sports Events, it can be concluded that the issues governed by these regulations are directly related to performance of the tasks which, by the Chapter III. Article 1, item d) of the FBiH Constitution, are explicitly placed in the sole competence of the FBiH (suppression of terrorism and inter-cantonal crime), because these regulations (Law on Prevention of Violence and Misbehaviour at Sports Events) determine the measures and activities necessary to suppress terrorist activities and inter-cantonal crime during the holding of public assemblies and sports events in the cantonal area.

The Law on the Prevention of Violence and Misbehaviour at Sports Events should be binding in the FBiH territory and not only in the area of the cantons for which this Law is adopted, because in sports fields, as a special form of public assembly, it (the Law?) requires a greater form of organizing such events which cannot be conducted independently by cantonal ministries without assistance of other cantonal ministries and FBiH Ministry of the Interior (escorting spectators, providing information,
providing technical, personnel and other assistance, taking measures against terrorist activities etc.). This regulation should be adopted on the basis of the decisions defined by the Chapter III. Article 3, paragraph 3 of the FBiH Constitution, which stipulates that in the implementation of these competencies regarding the laws and other regulations which are binding in the entire FBiH territory, in accordance with this Constitution and decisions of the FBiH Parliament, the FBiH authorities shall act while taking into account cantonal competencies, different situations in individual cantons, with the need for flexibility in implementation. The FBiH government has the right to establish policy and adopt laws concerning each of these competencies. Practice has shown that the above-mentioned provision of the Constitution should be the starting point to regulate the issue of organizing sports events in the FBiH territory, since certain deplorable events happened which resulted in death case. Supporters of particular clubs from a canton different from the canton where sports event was organized, because of disorder and incidents sustained serious injuries that were qualified as a criminal offense. Certain groups of supporters during sports event damage the objects and things of other persons and participate in fights. These actions have all the elements of inter-cantonal crime and the FBiH shall take all measures and actions in order to control successfully these negative activities.

In accordance with the above-mentioned initiative and given explanation, the FBiH Ministry of Interior decided, in order to regulate the aforementioned issues, to prepare a regulation that would regulate misbehaviour at sports fields and submit it to the FBiH Government. The FBiH Government adopted a conclusion accepting the Initiative of the Club of Bosniak Delegates and tasked the FBiH Ministry to submit to the FBiH Government a proposal of decision on the appointment of working group to draft the Law on Prevention of Violence and Misbehaviour at Sports Events. In accordance with the above-mentioned conclusion, the FBiH Government adopted a decision appointing the working group.

III - EXPLANATION OF PROPOSED SOLUTIONS

With regard to the concept and content, the Law on Prevention of Violence and Misbehaviour at Sports Events has been systematized in 7 chapters which make thematically complete units within the document unique by content, as follows: I - Basic Provisions, II - Concept of Violence and Misbehaviour at Sports Events, III - Measures to prevent violence and misbehaviour at sports events, IV – Adoption of Strategy and keeping records, V - Administrative supervision, VI - Penal provisions and XII - Transitional and final provisions.

This law establishes measures and activities to prevent terrorist activities by monitoring the entire course of sports event and effective and timely action of the FBiH Police Administration in cases of occurrence of inter-cantonal crime, as well as measures and actions related to endangering and violation of public order. All previously mentioned actions and measures to prevent occurrence of negative occurrences make the whole,
which is difficult to separate specifically to measures that would relate only to inter-cantonal crime, terrorism and public order at sports events.

I - Basic Provisions (Articles 1 to 7) contain basic principles related to the characteristics of violence and misbehavior at sport events and entities that are responsible for taking measures and actions to prevent violence and misbehavior at sports events, and these are: characteristics of violence and misbehavior and protection and other measures to prevent violence and misbehavior at sports events, responsibility of the organizer of sports event, Security Committee and meaning of certain terms specified in this Law and application of other regulations.

II - Concept of violence and misbehaviour at sports events (Articles 8 to 10)
This chapter defines actions that are considered as violence at sports events and misbehavior at sports events.

III - Measures to prevent violence and misbehaviour at sports events (Articles 11 to 31)
This chapter regulates issues related to measures taken by the organizer of sports event during sports event, measures taken at sports events with increased risk and measures taken by the competent authorities.

IV - Adoption of strategy and keeping records (Articles 32 to 37)
This chapter defines issues related to the development of strategy, co-operation and keeping records for preventing violence and misbehavior at sports fields. The adoption of strategy and cooperation was established by the Convention on integrated access to security, provision of services in football matches and other sports events.

V - Administrative supervision (Articles 38 to 39)
This chapter defines the issues related to the supervision of application of this Law and the bylaws adopted on the basis of this Law.

VI - Penal provisions (Articles 40 to 49)
This chapter identifies the criminal offense at sports events by lex specialis regulation and violations and protection measures taken against persons who commit violence and misbehave at sports events.

We believe that the most effective preventive measure for spectators is prohibiting their attendance at sports events if they commit acts of misbehaviour at sports events and security measure if they commit violence at sports events, and by these measures spectators themselves will influence on assurance of public order at sports events.

VII - Transitional and Final Provisions (Articles 50 to 52)
This chapter defines the issues related to the deadlines for adoption of bylaws and the date of entry into force of this Law.

IV - HARMONIZATION OF REGULATIONS WITH THE EUROPEAN LEGISLATION

The basis for adoption of special Law on Prevention of Violence and Misbehaviour at Sports Events derives from the European Convention on the Violence and Misbehaviour of Spectators at sports events, especially in football matches (Series of European Agreements number 120) which was opened for signature in Strasbourg on 19 August 1985.

On the basis of this Convention, many European countries passed a special law that regulates only the issue of violence and misbehaviour at sports events. The Law on Prevention of Violence and Misbehavior at Sports Events is in line with the mentioned Convention.

Likewise, a significant international document which regulates the issue of taking measures and actions at sports events to combat violence and misbehaviour at sports events is the Council of Europe's Convention on an Integrated Safety, Security and Service Approach at Football Matches and Other Sports Events, Saint-Denis 03 July 2016.

V - IMPLEMENTING MECHANISMS AND WAYS TO ENSURE RESPECT FOR REGULATIONS

The implementation of the Law will be provided by the FBiH Ministry and the cantonal ministry through supervision. These activities will be carried out through administrative supervision, which consists of giving expert opinions, providing information and other activities.

It is important to emphasize the significance of Security Committee which will be formed by sports associations under Article 4 of this Law, which will monitor and coordinate all activities related to security at sports events by the organizer of sports event.

Respect and application of regulations shall be provided by the coordination body referred to in Article 3, paragraph (3) of this Law, headed by police officer of the cantonal ministry on the area of which a sports event takes place.

VI - DESCRIPTION OF CONSULTATIONS CONDUCTED IN THE PROCESS OF DEVELOPMENT OF REGULATIONS

In accordance with the conclusions of the FBiH Government, the FBiH Ministry of Interior proposed a working group (WG), appointed by the FBiH Government, which made the Draft Law on Prevention of Violence and Misbehaviour at Sports Events. The WG made the Draft Law in accordance with the Decision of the FBiH

After receiving the proposals and remarks, the FBiH Minister of the Interior submitted to the FBiH Police Administration the Draft Law on Prevention of Violence and Misbehaviour at Sports Events with remarks and proposals from the above-mentioned authorities and institutions, for the purpose of reviewing the Draft Laws, remarks and proposals in order to establish the final text of the Draft Law on public assembly.

The following bodies had remarks and proposals to the Draft Law:
- The Football Federation of BiH - two,
- Inspectorate for supervision of work of agencies and internal services for protection of people and property from fire - four,
- Sector for General and Common Affairs - two.

The Cantonal Ministry of Interior from Canton 10 Livno, Herzegovina-Neretva Canton and West Herzegovina Canton expressed their views about the preliminary Draft Law on Prevention of Violence and Misbehavior at Sports Events, stating that the prevention of violence and misbehavior at sports events is the sole competence of the cantons and they disagree that the mentioned law is passed by the FBiH Parliament.

By reviewing the content of the Draft Law on Prevention of Violence and Misbehaviour at Sports Events, it can be clearly established that there is no transfer of the competence regarding prevention of violence and misbehavior at sports events organized at the Cantonal Ministry of Interior to any FBiH Administration Body, but these activities remain under the jurisdiction of the Cantonal Ministry of Interior. This law uniquely regulates the prevention of violence and misbehavior at sports events in the FBiH area, which in most cases, when the crime occurs in these events, has elements of inter-cantonal crime which fall within the sole competence of the FBiH. The remarks and proposals made by the Football Federation of BiH are not harmonized with the Law on Sports in BiH.

The remarks and proposals made by the Inspectorate for supervision of work of agencies and internal services for protection of people and property from fire pertained to the harmonization of the Draft Law on Prevention of Violence and Misbehaviour at Sports Events with the Law on agencies and internal services for protection of people and property and are fully accepted.

The remarks and proposals of the Sector for general and common affairs pertained to the nomotechnical regulation of the provisions.

The FBiH Police Administration considered the Preliminary Draft Law developed by the WG and established that the Preliminary Draft Law regulates the field in which
acts and actions encompassed by the definition of inter-cantonal crime are in the jurisdiction of the Federal Police Administration and that it is necessary to pass this law at the FBiH level.

III FINANCIAL RESOURCES

The adoption of this law does not require additional funds from the FBiH budget, but its implementation does.
